

Zinc Plus

A bioactive synergistic mineral formula

This formula contains zinc in a fully reacted chelated amino acid form plus synergistic nutrients including the amino acid methionine and activated B6 (pyridoxal 5-phosphate).

This formulation is involved in:

- Proper growth and development (Zinc)
- Over 200 enzymes in the body (Zinc)
- Healthy immune function (Zinc)
- Normal male physiology and function (Zinc)
- Maintaining healthy skin (Zinc)
- Reproductive hormone metabolism (Zinc)
- Minor wound healing (Zinc)
- Sperm production, ovulation and fertilisation (Zinc)
- Cell membrane structure and integrity (Zinc)
- The formation of the antioxidant superoxide dismutase (Zinc)
- Healthy vision and eye function (Zinc)
- Carbohydrate, protein and fat metabolism (Zinc and Pyridoxine)
- DNA synthesis (Zinc and Pyridoxine)

WARNING:

Contains zinc which may be dangerous if taken in large amounts or for a long period.

Vitamins can only be of assistance if dietary intake is inadequate.

AUST L 288574

Product Specifications

Each capsule contains:

Zinc amino acid chelate (Zinc glycinate monohydrate)	25 mg
Pyridoxal 5-phosphate (Active B6 equiv. pyridoxine 3 mg)	4.38 mg
Methionine	5 mg

Warning:

This product contains zinc which may be dangerous if taken in large amounts or for a long period.

Ingredients in this product have been formulated without:

Gluten, wheat, starch, yeast, soy, corn, egg, gelatin, fish, shellfish, wax, dairy, peanuts, tree nuts, salt, sucrose, artificial colours flavours or preservatives.

Excipients:

Colloidal anhydrous silica, microcrystalline cellulose, magnesium stearate

Recommended Dosage:

Adults: 1 capsule daily or as directed by a health care professional.

Pack Size:

90 Vegetable Capsules

Note:

All minerals are quoted as elemental.

Made in Australia from local and imported materials.
