InterClinical Professional

Bioactive compounds are nutrients able to regulate metabolic functions leading to beneficial physiological, behavioral, and immunological effects.

Bioavailability is the potential for uptake of a substance by a living organism. It is usually expressed as the fraction that can be taken up by the body in relation to the total amount of the substance available. Increased bioavailability means greater absorption with reduced quantity.

Quality Ingredients supplements contain only the purest food-grade and nutraceutical ingredients, with an extensive list of free-from claims and are suitable for vegans. All our products are manufactured and packaged in Australia in accordance with GMP compliances and TGA regulatory guidelines.

Fully Reacted Mineral Amino Acid Chelates Minerals are found in small quantities in everyday foods and supplementation is usually found in chemical forms that are not readily bioavailable. Chelation binds the desired minerals and amino acids into a stable molecule for bioavailable absorption. Mineral Amino Acid Chelates are absorbed in high proportion in the mid-small intestine, via an active transport mechanism, such as a stable dipeptide, rather than being absorbed in the gastro-intestinal tract like other minerals.

Synergistically formulated to support absorption and cellular utilisation of nutrients, at the minimum dose. This has been achieved by understanding the complex nutrient interrelationships and applying this to all formulations - compounds that work together for greater therapeutic value.

Evidence-Based InterClinical Professional range is the result of solid research by close collaboration between InterClinical Laboratories, Dr David L Watts PhD, Director of Research for Trace Elements Inc., and a team of Australian experts, incorporating scientists, researchers, medical experts and practitioners.

Optimal for Flexible Dosing offering advantageous and effective use of supplementation, based on chronic or acute clinical evaluation, age, gender etc Megadoses of nutritional elements, without knowing individualised upper tolerable limits can cause imbalances.

The InterClinical Professional range includes energy & stress multi's, endocrine support supplements, digestive aids, essential vitamins and the most extensive collection of elemental mineral formulas targeting optimal health.

Multi-Nutrient - Energy & Stress & Detox Support

InterClinical Professional multi-nutrient formulas are specially designed to meet different metabolic needs for healthy stress management and energy production. They are designed as the foundation for patient treatment protocols and for daily nutritional support.

Each person's metabolism is unique. Studies have shown that there is a high degree of diversity in individual biochemical makeup affecting each person's nutritional status including absorption, utilisation and excretion of nutrients. Stressors in daily life affect energy levels, sympathetic or parasympathetic dominant individuals need appropriate support.

Nutritional balancing, support and therapy normally require treatment with either energy stimulating (Para Tone) or conversely calming and soothing (Sym Balance) nutritional support. Both multi-nutrients are designed for use in conjunction with other InterClinical supplements, such as endocrine and immune support, digestive aids and individual vitamin and mineral formulas.

FOR PRACTITIONER DISPENSING ONLY

Targeting Optimal Health

Para Tone

Vitamin, Mineral & Herbal Multi-Nutrient

A distinctive multi-nutrient supporting energy levels and production, healthy stress response, and further supports digestive, cognitive, immune and thyroid function.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Para Tone is designed to provide sympathetic support. It contains a synergistic blend of vitamins, minerals and herbs including vitamin B5 to support energy production and stress response, activated forms of vitamin B6 and B9, bioflavonoids, amino acids and the specially selected herbs *Eleutherococcus senticosus*, *Brassica oleracea* var. *Italica*, *Withania somnifera*, *Capsicum annuum*, *Zingiber officinale* and *Piper nigrum*.

What you need to know about this supplement

- Supports healthy stress response in the body and assists in coping with environmental stress (pantothenic acid)
- Maintains healthy thyroid gland function (iodine)
- Aids thyroid hormone production (selenium)
- Maintains energy production (pantothenic acid, thiamine, biotin, iodine, pyridoxine, nicotinamide, manganese)
- Supports energy levels (pantothenic acid, pyridoxine, nicotinamide, *Eleutherococcus senticosus*)
- Helps convert fats and carbohydrates into energy (biotin)
- Maintains nervous system function (thiamine, pyridoxine, nicotinamide, pantothenic acid, ascorbic acid, zinc)
- Maintains cognitive function (*Eleutherococcus senticosus*, iodine, zinc).
- Maintains focus and clarity (*Eleutherococcus senticosus*)
- Maintains healthy immune system function (zinc, pyridoxine, selenium, ascorbic acid, d-alpha-tocopherol)
- Supports healthy blood circulation in traditional Western Herbal Medicine (*Capsicum annuum*). Supports heart health (thiamine).
- Improves digestive weakness and relieves symptoms of indigestion in traditional Western Herbal Medicine (*Zingiber officinale*, *Capsicum annuum*).
- Reduces flatulence and excess intestinal gas (*Capsicum annuum*)
- Relieves colic and abdominal spasm in traditional Western Herbal Medicine (*Zingiber officinale*).
- Assists the metabolism of proteins (levomefolic acid)
- Antioxidant; reduces free radicals formed in the body (ascorbic acid, d-alpha-tocopherol, selenium, manganese, and zinc).
- Maintains general health and wellbeing (levomefolic acid, thiamine, biotin, iodine, pyridoxine, selenium, nicotinamide, pantothenic acid, ascorbic acid, d-alpha-tocopherol, manganese and zinc)

For Practitioner Dispensing Only

Specifications

90 Film Coated Tablets

Description: Dark Amber

Dosage Adults: Take 1 tablet, 3 times daily with water, or as directed by your healthcare professional.

Vegan friendly

Blended, tableted and packaged in Australia

Allergen & Free From

Ingredients in this product have been formulated without gluten, wheat, yeast, egg, gelatin, fish, molluscs, crustaceans, milk products, peanuts, tree nuts, sesame, bee products, artificial preservatives, colours or flavours.

Each Tablet Contains:

Thiamine hydrochloride	2.54 mg
Equiv. Thiamine (Vitamin B1)	2 mg
Nicotinamide	20 mg
Calcium pantothenate	9.83 mg
Equiv. Pantothenic acid (Vitamin B5)	9 mg
Pyridoxal 5-Phosphate monohydrate	3.14 mg
Equiv. Pyridoxine (Vitamin B6)	2 mg
Levomefolate glucosamine	90 mcg
Equiv. Levomefolic acid (5-MTHF)	50 mcg
Ascorbic acid (Vitamin C)	60 mg
d-alpha tocopheryl acetate	7.35 mg
Equiv. d-alpha-tocopherol (Vitamin E 10 IU)	6.71 mg
Biotin	80 mcg
Inositol	50 mg
Quercetin	50 mg
Potassium (as Potassium sulfate)	35 mg
Zinc (as zinc glycinate monohydrate)	3 mg
Manganese (as manganese (II) glycinate)	1mg
Iodine (as Potassium iodide)	70 mcg
Selenium (as selenomethionine)	20 mcg
Levocarnitine fumarate	178.6 mg
Equiv. Levocarnitine	100 mg
Tyrosine	10 mg
Lysine hydrochloride	12.5 mg
Equiv. Lysine	10 mg
Serine	5 mg
<i>Eleutherococcus senticosus</i> ext. dry conc.	50 mg
Derived from minimum dry root	750 mg
Stand. to contain eleutherosides	40 mcg
<i>Brassica oleracea</i> var. <i>Italica</i> ext. dry conc.	37.5 mg
Derived from dry herb	750 mg
<i>Withania somnifera</i> ext. dry conc.	25 mg
Derived from dry root	250 mg
<i>Zingiber officinale</i> rhizome ext. dry conc.	10 mg
Derived from minimum dry rhizome	250 mg
Stand. to contain gingerols	1mg
<i>Capsicum annuum</i> ext. dry conc.	8.33 mg
Derived from dry fruit	50 mg
<i>Piper nigrum</i> fruit ext. dry conc.	16 mcg
Derived from minimum dry fruit	400 mcg
Stand. to contain Piperine	15.2 mcg

Vitamin E is from a naturally derived source.

Warnings

If symptoms persist, talk to your health professional.

This medicine contains selenium which is toxic in high doses. A daily dose of 150 micrograms for adults of selenium from dietary supplements should not be exceeded. Vitamins and minerals can only be of assistance if dietary intake is inadequate.

Excipients

calcium carbonate, calcium hydrogen phosphate, calcium sulfate, Carnauba Wax, citric acid, colloidal anhydrous silica, croscarmellose sodium, hypromellose, iron oxide red, macrogol 8000, magnesium stearate, maltodextrin, microcrystalline cellulose, purified water, silicon dioxide, Sunflower Oil

Sym Balance

Vitamin, Mineral & Herbal Multi-Nutrient

A distinctive multi-nutrient supporting healthy stress response, energy production and reduces nervous tension. It relieves restlessness sleep, supports liver & immune function...

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Sym Balance is designed to provide energy and stress support. It contains a synergistic blend of herbs including *Leonurus cardiaca* to soothe and calm the nerves, *Passiflora incarnata* to relieve restlessness and excess nervous energy; vitamins including B2 and the activated form of B6; bioavailable minerals including calcium and magnesium glycinate, plus amino acids including, taurine, lysine and methionine.

What you need to know about this supplement

- Supports healthy stress response in the body (pantothenic acid)
- Assists in coping with environmental stress (pantothenic acid)
- Maintains nervous system health (hydroxocobalamin, copper, pyridoxine, pantothenic acid, choline) and aids neurotransmitter synthesis (hydroxocobalamin, pyridoxine, pantothenic acid, choline)
- Maintains energy production (pantothenic acid, biotin, hydroxocobalamin, riboflavin, copper, pyridoxine, Co-Enzyme Q10)
- Maintains energy levels (pantothenic acid, pyridoxine)
- Maintains healthy immune system function (vit D, hydroxocobalamin, riboflavin, copper, pyridoxine)
- Relieves feelings of general malaise, debility and irritability in traditional Western Herbal Medicine; soothes and calms nerves (*Leonurus cardiaca*)
- Relieves restlessness and excess nervous energy and nerve pain (*Leonurus cardiaca*, *Passiflora incarnata*) reduces unrest & nervous tension (*Passiflora incarnata*), neuralgia (*Passiflora incarnata*) & nervous system relaxant (*Passiflora incarnata*) in traditional Western Herbal Medicine
- Relieves sleeplessness (*Passiflora incarnata*) and relieves disturbed and restless sleep (*Passiflora incarnata*, *Leonurus cardiaca*) in traditional Western Herbal Medicine and sleeplessness in traditional Chinese Medicine (*Schisandra chinensis*)
- Supports cardiovascular system & heart health; strengthens the heart & supports healthy heart function in traditional Western Herbal Medicine (*Leonurus cardiaca*)
- Antioxidant; reduces free radical damage in the body (riboflavin, copper)
- Supports healthy liver function (choline)
- Maintains neuromuscular function (vit D) & nerve conduction (copper, choline)
- Assists metabolism of carbohydrates, fats and proteins (biotin, vit B12, riboflavin, pyridoxine, pantothenic acid, Co-Enzyme Q10)
- Helps prevent dietary deficiency (biotin, vit B12, riboflavin, vit D, copper, pyridoxine, pantothenic acid, choline)
- Maintains general health and wellbeing (biotin, vit B12, riboflavin, vit D, copper, pyridoxine, pantothenic acid, Co-Enzyme Q10, choline, *Leonurus cardiaca*)
- Supports general health and wellbeing in traditional Western Herbal medicine (*Passiflora incarnata*, *Leonurus cardiaca*)
- Supports general health in traditional Chinese Medicine (*Schisandra chinensis*)

Endocrine & Specialty Support

The adrenal glands are a vital part of the endocrine system. Adrenal hormones set metabolic rate and regulate blood pressure and circulation, fluid and electrolyte balance, blood sugar levels, mental alertness and muscular strength.

Depending on whether the patient's metabolism is sympathetic or parasympathetic dominant, stress can cause either over-activity or under-activity of the adrenal glands, leading to endocrine disruption and the development of endocrine disorders.

Aden Complex contains a combination of specific nutrients and liquorice an adrenal modulator, used in Western Herbal medicine to support healthy adrenal function. Aden Complex combines botanical extracts with synergistic nutrients. It is designed for use in conjunction with other InterClinical Professional supplements, such as the multi-nutrient energy supplements, digestive aids and individual vitamin and mineral formulae.

FOR PRACTITIONER DISPENSING ONLY

Targeting Optimal Health

Aden Complex

Bioactive synergistic support formula

Formulated to support healthy adrenal & immune function. Assist the body in coping with environmental stress and relieving the symptoms of fatigue.

A proprietary vegan blend of Liquorice root, Shatavari, Panax ginseng, Ginger, Vitamins B1, B5, B6 & C, minerals and antioxidants.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Rejuvenative Tonic. This formula supports healthy stress response, healthy immune function, energy production, cognitive health and clarity; improves stamina and body strength; reduce coughing and clears respiratory tract mucous; It supports reproductive health, nervous system health, heart, skin, eye and hair health.

What you need to know about this supplement

- Traditionally used in Western Herbal Medicine to support healthy adrenal gland function (*Glycyrrhiza glabra*)
- Traditionally used in Ayurvedic Medicine as a rejuvenative tonic, nervine & aphrodisiac (*Asparagus racemosus*)
- Support healthy stress response and aids the body to cope with environmental stress (Pantothenic acid)
- Traditionally used in Chinese Medicine to relieve tiredness & fatigue (Panax ginseng, *Glycyrrhiza glabra*)
- Maintain healthy immune system function (Vitamin C, Zinc, Pyridoxine, Panax ginseng)
- Traditionally used in Chinese Medicine as a body tonic and to support stamina, mental focus & clarity (Panax ginseng)
- Support energy levels (Thiamine, Pantothenic acid & Pyridoxine)
- Traditionally used in Western Herbal Medicine as a demulcent; also to clear respiratory tract mucous & relieve coughing (*Glycyrrhiza glabra*)
- Maintains nervous system health; Aid in neurotransmitter synthesis (Thiamine, Pantothenic acid, Pyridoxine & Vitamin C)
- Support reproductive system health; Maintains general wellbeing (*Asparagus racemosus*) & preconception health in healthy females & males (Zinc)
- Maintains eye & cardiovascular system health (Zinc & Lutein)
- Support muscle function & heart health (Thiamine)

Gluco Chrome

Bioactive Synergistic Mineral & Specialty Supplement

Specialty formula supporting healthy blood sugar and glucose metabolism.

Contains a blend of two forms of chromium with synergistic nutrient co-factors including amino acids, vitamin B3, CoQ10 and Alpha lipoic acid, and True cinnamon.

Now contains an exciting, patented polypeptide Bitter Melon extract!

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This premium supplement contains Chromium picolinate and Chromic chloride hexahydrate; ALA (Alpha lipoic acid); the amino acids cysteine, glutamine and glycine; CoQ10 (Ubidecarenone), Vitamin B3 (nicotinamide) and True Cinnamon (*Cinnamomum verum*) plus a patented form of **bitter melon** (*Momordica charantia*).

This innovative blood-glucose-modulating bitter melon polypeptide has been patented in the US, UK, Germany, Italy, France, Switzerland, Japan, and Taiwan, with evidence-based research.¹

What you need to know about this supplement

- Helps support healthy blood sugar in healthy individuals (Chromium)
- Assists glucose, sugar & carbohydrate metabolism (Chromium)
- Chromium is an important component in glucose tolerance factor
- Supports energy production (Ubidecarenone, Alpha lipoic acid, Nicotamine)
- Supports nervous system & body mucous membrane health (Nicotamine)
- Maintains energy levels (Nicotamine)
- Traditionally used in Western Herbal Medicine to relieve digestive discomfort (*Cinnamomum verum*)
- Source of chromium. Helps prevent dietary chromium and Vitamin B3 deficiency

Digestive Aids

A healthy digestion is the key to good health. Ageing, stress, poor diet, refined foods, alcohol and drugs, environmental toxins and a range of medical conditions can reduce digestive function. Compromised nutrient status and poor protein digestion may cause allergies, indigestion, heavy metal toxicity and many other health conditions.

Improved digestion supports the absorption of nutrients, ensuring that the patient is receiving greater benefit from their health regime.

The InterClinical Professional range includes two digestive support formulae. HCL Support contains the botanical extract *Gentiana lutea*; used in Western Herbal medicine to help stimulate gastric secretions; and other synergistic enzymes, nutrients and botanical extracts. Digestive Zyme contains herbs such as *Berberis vulgaris* and *Zingiber officinale*; both traditionally used in Western Herbal medicine to relieve symptoms of indigestion; and other synergistic herbs and amino acids.

Both are designed to support InterClinical Professional supplements, such as the multi-nutrient metabolic supplements, adrenal support formulae and individual vitamin and mineral formulae.

FOR PRACTITIONER DISPENSING ONLY

Targeting Optimal Health

HCL Support

Herbal & Nutritional Digestive Supplement

Supports healthy digestive system function.

Assists in the metabolism of carbohydrates, fats and proteins, relieves indigestion, colic (wind/gas pain), and abdominal spasms.

Stimulates gastric secretions and assists in protein digestion.

Contains the herbs Gentian and Ginger, supported by nutrients and enzymes.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains the herbs Gentian (*Gentiana lutea*) and Ginger (*Zingiber officinale*), supported by nutrients and enzymes.

What you need to know about this supplement

- Supporting healthy digestive function (Protease)
- Maintaining healthy immune system function (Zinc)
- Stimulating gastric secretions (Gentian)
- Relieving indigestion (Gentian and Ginger)
- Relieving colic (gas/wind) (Ginger)
- Relieving flatulence (Ginger and Gentian)
- Assisting protein digestion (Protease)
- Assisting the metabolism of carbohydrates, fats and proteins (Thiamine, Niacin and Zinc)
- Relieving abdominal spasms (Ginger)

Digestive Zyme

Herbal & Nutritional Digestive Supplement

A comprehensive support formula combining active enzymes and traditional herbs to enhance gastric secretions and healthy digestive function.

Formulated to improve the absorption of nutrients and calm digestive discomfort.

Lactase, Lipase and Protease aid the digestion of lactose, fats and proteins, with the support of Barberry, Globe Artichoke and Ginger.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains Barberry (*Berberis Vulgaris*) to stimulate gastric secretions and relieve symptoms of indigestion, the carminative herb Ginger (*Zingiber Officinalis*) is added to relieve spasm, colic and flatulence. Ginger is also traditionally known to 'stoke the digestive fire'.

Contains therapeutic levels of the digestive enzymes lactase, lipase and protease to improve the digestion of lactase, fats and proteins further supporting digestive system function.

Globe Artichoke (*Cynara Scolymus*) and the nutrients Taurine and glycine additionally support this formula.

What you need to know about this supplement

- Supports healthy digestive system function (Lipase, Protease)
- Traditionally used in Western Herbal Medicine to relieve symptoms of indigestion (*Berberis vulgaris*, *Zingiber officinale*)
- Traditionally used in Western Herbal Medicine to reduce colic (wind/gas pain) (*Zingiber officinale*)
- Assists the digestion of protein (Protease)
- Aids the digestion of lactose (Lactase)
- Assists digestion of fats (Lipase)
- Lactase (lactase), lipase and protease are digestive enzymes.

Minerals

InterClinical Professional includes an extensive range of elemental mineral formations. Our minerals are sourced from high-quality glycinate amino acid chelates, or from high-grade mineral salts. Each formulation includes synergistic vitamins, amino acids and other nutrients that assist absorption and cellular uptake of the mineral, as well as supporting its biological function.

The mineral range includes amino acid chelates which can be absorbed in the duodenum via an active transport mechanism, rather than simply being absorbed in the gastrointestinal tract like non-chelated minerals. Additionally, they are 'reacted' to their full extent giving them the added advantage of an unvarying and uniform potency.

The benefits of mineral chelates:

- High absorption
- Absorption not pH-dependent, therefore high stomach acid level
- Reduced interact with food in the digestive tract
- Higher bio-availability
- Reduced likelihood of causing gastric irritation & Lower toxicity

The benefits of mineral salts are:

Easy dissolution, Rapid absorption, Naturally derived

Calcium Plus

Bioactive Synergistic Mineral Supplement

Calcium Plus supports bone density and integrity, helps support bone mineralisation, and may help prevent osteoporosis.

Helps maintain a healthy cardiovascular system, immune system, and neuromuscular function also healthy teeth and nerve conduction.

Now with Silicon!

Supporting collagen formation, & bone, cartilage, ligaments and tendons!

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains calcium in a fully reacted chelated form, plus synergistic nutrients; natural vitamin K2 (menaquinone 7 from *Bacillus subtilis*), natural vitamin D3 (from organic lichen), amino acids; taurine, lysine & proline; and now with Silicon.

What you need to know about this supplement

- Support bone health (Calcium, Vitamin D, Menaquinone 7)
- Helps maintain bone mineralisation (Calcium, Vitamin D, Menaquinone 7, Silicon)
- Maintain bone strength (Calcium, Vitamin D)
- Support bone density (Calcium)
- Support healthy cardiovascular system function (Calcium)
- Maintain healthy digestive system function (Calcium)
- Support healthy muscle contraction function (Calcium)
- Maintain muscle function & healthy teeth (Calcium, Vitamin D)
- Support nerve conduction & neuromuscular function. (Calcium)
- Maintain healthy immune system function (Vitamin D)
- Maintain healthy neuromuscular system (Menaquinone 7)
- Support blood health (Menaquinone 7)
- Support collagen formation and skin integrity (Silicon)
- Assist connective tissue formation & healthy bone development (Silicon)
- Helps support healthy joint cartilage production & healthy ligaments & tendons (Silicon)
- Vitamin D supports levels in the body when sun exposure is inadequate and helps calcium absorption and a diet deficient in calcium can lead to osteoporosis in later life (Vitamin D)

Specifications

90 Film Coated Tablets 20mm
8mm

Description: Light yellow oval shaped tablets

Dosage Adults: 2 tablets, with water, twice daily, or as directed by your healthcare professional.

Vegan friendly

Made in Australia

AUST L 391730

Allergen & Free From

Ingredients in this product have been formulated without gluten, wheat, yeast, soy, egg, gelatin, fish, molluscs, crustaceans, milk products, sesame, peanuts, tree nuts, bee products, artificial preservatives, colours or flavours.

Each Tablet Contains:

Calcium (as Calcium glycinate)	150 mg
Silicon (as colloidal anhydrous silica)	10mg
Menaquinone	30 micrograms
Colecalciferol (Vitamin D3 100 IU)	2.5 micrograms
Lysine hydrochloride	15 mg
Proline	15 mg
Taurine	15 mg

Vitamins and minerals can only be of assistance if dietary intake is inadequate.

Excipients: Colloidal anhydrous silica, , croscarmellose sodium, d-alpha-tocopherol, fractionated coconut oil, glycerol Guar Gum, hydrolysed maize starch, lecithin liquid, glucose, magnesium stearate, maize starch, maltodextrin, medium chain triglycerides microcrystalline cellulose, purified water, silicon dioxide, sodium ascorbate, sucrose, Carnauba Wax

Magnesium Plus

Bioactive Synergistic Mineral Supplement

Fully reacted amino acid chelated magnesium - maintains healthy neuromuscular function, supports bone mineralisation, nerve conduction, heart health and energy production. Assists in the metabolism of carbohydrates, fats and proteins, assists healthy red blood cell production. Magnesium and vitamin B6 maintain immune system health.

Now suitable for children too!

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains magnesium in a fully reacted chelated amino acid form, plus synergistic nutrients bioactive vitamin B6 (pyridoxal 5-phosphate) and natural vitamin K2 (menaquinone 7).

What you need to know about this supplement

- Helps prevent dietary magnesium, vitamin B6, and vitamin K deficiency.
- Maintains muscle function (magnesium)
- Maintains nerve conduction (magnesium)
- Maintains neuromuscular function (magnesium)
- Maintains electrolyte balance (magnesium)
- Maintains and supports cardiovascular system health (magnesium)
- Maintains and supports heart health (magnesium)
- Maintains and supports energy levels (magnesium, pyridoxine)
- Maintains and supports energy production (magnesium)
- Maintains and supports nervous system function (magnesium, pyridoxine)
- Aids neurotransmitter synthesis (pyridoxine)
- Maintains and supports healthy immune system function (magnesium, pyridoxine)
- Maintains bone health (magnesium, menaquinone 7)
- Helps maintain bone mineralisation (menaquinone 7)
- Maintains healthy teeth (magnesium)
- Maintains blood health (menaquinone 7)
- Maintains haemoglobin synthesis (pyridoxine)
- Maintains healthy red blood cell production (pyridoxine)
- Aids metabolism of carbohydrates, fats and proteins (magnesium, pyridoxine)
- Supports general health and wellbeing (magnesium, pyridoxine and menaquinone)
- Aids in healthy bone development (menaquinone 7 & magnesium) in children

Potassium Plus

Bioactive Synergistic Mineral Supplement

Potassium Plus is a specialty formula supporting energy levels and maintaining body electrolyte balance and healthy acid/alkali balance in the body.

Maintains healthy cardiovascular, nervous system, neuro-muscular & kidney function

Potassium Plus also assists in carbohydrate metabolism.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains potassium as a mineral chelate with added synergistic nutrients nicotinamide (vitamin B3) and pyridoxal 5-phosphate (activated vitamin B6).

What you need to know about this supplement

- Maintaining body electrolyte balance (Potassium)
- Helping maintain healthy acid/alkali balance in the body (Potassium)
- Maintaining healthy cardiovascular system function (Potassium)
- Maintaining healthy muscle contraction function (Potassium)
- Maintaining nervous system function (Potassium)
- Maintaining nerve conduction (Potassium)
- Maintaining neuromuscular function (Potassium)
- Maintaining kidney function (Potassium)
- Assisting carbohydrate metabolism (Potassium)
- Supporting general health and well being (Potassium)
- Helping prevent dietary potassium deficiency
- Supporting energy levels (Nicotinamide, Pyridoxine)

Zinc Plus

Bioactive Synergistic Mineral Supplement

Contains a fully reacted chelated amino acid form of zinc plus synergistic nutrients including activated B6 (pyridoxal 5-phosphate) and the amino acid methionine.

Maintains healthy immune system function, energy levels, vision, skin integrity, hair and nails. Supports preconception health and cognitive function in healthy adults and maintains energy levels.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains zinc in a fully reacted chelated amino acid form plus synergistic nutrients including activated B6 (pyridoxal 5-phosphate) and the amino acid methionine.

What you need to know about this supplement

- Maintaining healthy immune system function (Zinc)
- Supporting cognitive function in healthy adults (Zinc)
- Supporting preconception health in healthy males and females (Zinc)
- Maintaining testosterone levels (Zinc)
- Maintaining skin integrity and structure (Zinc)
- Maintaining bone health (Zinc)
- Maintaining and supporting healthy vision (Zinc)
- Supporting healthy hair and nails (Zinc)
- Helping reduce free radical damage to body cells (Zinc)
- Supporting nervous system function (Zinc, Pyridoxine)
- Maintaining and supporting energy levels (Pyridoxine)
- Aiding healthy red blood cell production (Pyridoxine)
- Assisting the synthesis of neurotransmitters (Pyridoxine)
- Helping prevent dietary zinc deficiency
- Supporting general health and wellbeing (Zinc, Pyridoxine)

Copper Plus

Bioactive Synergistic Mineral Supplement

This bioactive copper formula paired with the synergistic nutrient vitamin B2 (riboflavin) maintains healthy immune system function, energy production and connective tissue health.

Supports haemoglobin synthesis and healthy red blood cell production and supports blood vessel health.

Maintains bone, skin, hair and nail health and helps reduce free radical damage to body cells.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains copper in a fully reacted chelated amino acid form paired with the synergistic nutrient vitamin B2 (riboflavin).

What you need to know about this supplement

- Assists healthy red blood cell production (Copper)
- Supports haemoglobin synthesis (Copper)
- Maintains healthy immune system function (Copper, Riboflavin)
- Supports nerve conduction (Copper)
- Supports bone health (Copper)
- Supports skin health (Riboflavin)
- Supports body mucous membrane health (Riboflavin)
- Supports nail health (Riboflavin)
- Supports hair health (Riboflavin)
- Maintains healthy eye function (Riboflavin)
- Helps reduce free radical damage to body cells (Copper, Riboflavin)
- Maintains energy production (Copper, Riboflavin)
- Supports blood vessel health (Copper)
- Maintains connective tissue health (Copper)

Iron Plus

Vitamin & Mineral Supplement

A bioactive, synergistic source of iron as a fully reacted amino acid chelate glycinate, supported by vitamin C, B2 and levomefolate calcium, the biologically active form of folate.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Iron Plus is a carefully crafted formula containing Ferrochel® a bioactive, fully reacted chelated form of iron which is composed of two glycine molecules bound to a ferrous cation which protects iron from dietary inhibitors such as phytates and polyphenols, plus the synergistic nutrients vitamin C (Ascorbic acid) to support iron absorption, riboflavin for iron metabolism and L-5-MTHF, the primary active metabolite of folic acid to support blood health and foetal development.

What you need to know about this supplement

- Helps prevent dietary iron, folate, vitamin C & riboflavin deficiency
- Aids healthy red blood cell production and health, maintains blood health (iron, folate, riboflavin) and haemoglobin synthesis (iron) and maintains blood vessel and capillary health (vitamin C)
- Aids oxygen transport to body tissues (iron)
- Maintains energy levels (iron) and supports energy production (iron, riboflavin)
- Supports preconception and healthy pregnancy in healthy females (folate) and maintains healthy foetal development (folate)
- Supports the absorption of dietary iron (vitamin C) and assists the metabolism of iron (riboflavin)
- Antioxidant; reduces free radicals found in the body (vitamin C, riboflavin)
- Maintains collagen formation & connective tissue health (vitamin C), assists connective tissue formation (vitamin C, riboflavin) and supports healthy body tissues (riboflavin)
- Supports bone health (vitamin C)
- Maintains immune system function (iron, vitamin C, riboflavin)
- Supports nervous system function (vitamin C)
- Aids neurotransmitter synthesis (iron and vitamin C)
- Maintains healthy teeth (vitamin C)
- Supports wound healing (vitamin C)
- Assists metabolism of proteins (folate)
- Supports mucous membrane health (riboflavin)
- Supports eye, hair and nail (riboflavin) and maintains skin health (vitamin C, riboflavin)

For Practitioner Dispensing Only

Manganese Plus

Bioactive Synergistic Mineral Supplement

This specialty formula supports collagen formation and reduces free radical damage to the body.

Assists connective tissue formation, muscle function, healthy bone development and neurotransmitter synthesis.

Also aids in carbohydrate metabolism and heart health.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

This formula contains manganese as a fully reacted amino acid chelate (manganese glycinate) and the synergistic nutrient vitamin B1 (thiamine).

What you need to know about this supplement

- Supporting collagen formation (Manganese)
- Assisting connective tissue formation (Manganese)
- Supporting nerve conduction (Thiamine)
- Helping reduce free radical damage to body cells (Manganese)
- Assisting neurotransmitter synthesis (Thiamine)
- Maintaining muscle function (Thiamine)
- Aiding carbohydrate metabolism (Manganese and Thiamine)
- Assisting healthy bone development (Manganese)
- Maintaining heart health (Thiamine)
- Helping prevent dietary manganese and thiamine deficiency.

Silica Advanced

Bioactive Synergistic Mineral Supplement

Silica Advanced supports the formation of collagen for healthy hair, skin, and nails, and the production and maintenance of joints, bones, ligaments, and tendons.

Silica Advanced contains Mesoporousil® Silica, a highly bioavailable form of silicon that absorbs quickly and as shown in studies can be longer acting⁽¹⁾.

Formulated with synergistic cofactors and antioxidants, Grape seed extract, Alpha-lipoic acid and amino acids proline, lysine, histidine, and cysteine.

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Silicon is implicated in collagen synthesis, skin, hair and nail health, and contributes to the strength and elasticity of connective tissues.

Silica Advanced contains Mesoporousil® a highly bioavailable, colourless, tasteless and odorless form of silicon. This innovative ingredient produced from a patented process, has higher absorption properties supported by evidence based studies⁽¹⁾. It is transported across the human intestinal wall by a mechanism of passive diffusion via the paracellular route.

Collagen is the most abundant protein in connective tissue. Silicon is essential for the production and cross-linking of the collagen fibers.

What you need to know about this supplement

- Support collagen formation. (Silicon)
- Maintain skin integrity and structure. (Silicon)
- Maintain hair, skin and nail health. (Silicon)
- Support tendon health and healthy ligaments. (Silicon)
- Helps maintain bone mineralisation and aids healthy bone building. (Silicon)
- Assists connective tissue production. (Silicon)
- Helps maintain healthy joint cartilage production. (Silicon)
- Support Silicon levels in the body. (Silicon)
- Antioxidant; reduces free radicals formed in the body. (Vitis vinifera - Grape seed extract; Alpha-lipoic acid).
- Supports energy production (Alpha-lipoic acid)

Contains Mesoporousil®

Vitamins

The InterClinical Professional range includes three vitamin formulations. Each formulation includes synergistic, bioavailable nutrients such as activated B vitamins, which bypass the enzymatic steps needed for standard B vitamin activity and facilitate greater utilisation, for less effort, by the body. The vitamin E formula contains synergistic antioxidants selenium and glutathione; and vitamin C includes the added benefits of bioflavonoids.

These formulations are supported by nutrients which help facilitate absorption and utilisation including specific minerals, antioxidants and herbal coactives. Our vitamin range is designed to be used in conjunction with other InterClinical Professional supplements such as the metabolic, endocrine, immune, digestive and mineral support formulae.

The benefits:

- Metabolically active B vitamins bypass genetic, age-related and metabolic impediments in low dosage therapeutic amounts
- Bioflavonoid synergists to complement the therapeutic action of Vitamin C
- Antioxidants selenium and glutathione to support vitamin E activity
- Complementary antioxidants to help protect both the inside and the surface of cells
- A naturally-derived source of vitamin E, facilitating absorption

Vitamin C Plus

Bioactive Synergistic Vitamin Supplement

Contains vitamin C plus synergistic nutrients manganese a fully reacted amino acid chelate, rutoside, resveratrol and the supporting herb rosehip (Rosa canina).

Supports healthy immune system function, collagen and connective tissue formation, nervous system health and skin and wound healing. Aids in the synthesis of neurotransmitters and maintains healthy teeth and bone

Nutritional Therapy

Bioactive Bioavailable Quality Ingredients

Ascorbic acid plus synergistic nutrients manganese as a fully reacted amino acid chelate, rutoside, resveratrol from Reynoutria japonica (Japanese knotweed) and the supporting herb rosehip (Rosa canina).

What you need to know about this supplement

- Helps reduce free radical damage to body cells (Vitamin C, Manganese, Reynoutria japonica)
- Supports collagen and connective tissue formation (Vitamin C, Manganese)
- Healthy teeth and bone maintenance (Vitamin C)
- Aids the synthesis of neurotransmitters (Vitamin C)
- Aids healthy bone growth and maintenance (Manganese)
- Maintains blood vessel and blood capillary health (Vitamin C)
- Supports healthy immune system function (Vitamin C)
- Aiding sugar and carbohydrate metabolism (Manganese)
- Supports absorption of dietary vitamin C
- Helps prevent dietary iron deficiency (Vitamin C)
- Nervous system health support (Vitamin C)
- Reduces the duration and severity of the common cold symptoms (Vitamin C)
- Supports skin health and wound healing (Vitamin C)
- Helps prevent dietary vitamin C deficiency (Vitamin C, Manganese)
- Maintains general health and well being (Vitamin C, Manganese)
