

Reparen Joint Care+

Specialty Formula

Exciting new Reparen product formulated specifically to assist with joint mobility and flexibility, and to relieve symptoms of mild joint aches, pains and mild arthritis. Supports healthy joint cartilage growth and collagen formation.

As with the original Reparen, Reparen Joint Care+ contains monobasic calcium phosphate, a special water-soluble, ionic form of calcium & phosphorus, plus two patented ingredients Mesoporousil® Silica and Natural Eggshell Membrane

Reparen Joint Care+ contains two high-quality patented ingredients for improved efficacy. Mesoporousil® Silica, is a highly bioavailable form of silicon that absorbs quickly and as shown in studies can be longer acting. Natural Eggshell Membrane, made by a patented process, comprises Types I, V & X collagen; naturally occurring glycosaminoglycans including chondroitin, glucosamine and hyaluronic acid. Synergistic cofactors include Ascorbic acid and Quercetin.
