At InterClinical we know vitamins and minerals are essential for good health. People are different, so we think nutritional supplements should reflect this. The InterClinical Professional range is formulated to meet specific, individual nutritional and metabolic needs.

Optimum nutrition does not mean mega-doses. Our products are synergistically formulated to support absorption and cellular utilization of nutrients, at the minimum dose. We’ve achieved this by applying our knowledge of complex nutrient interrelationships to our formulations. As a result our products are always scientifically evidence-based, economical and encourage patient compliance.

The InterClinical Professional range includes an extensive collection of elemental minerals, metabolic multi-nutrients, endocrine support supplements, digestive aids and essential vitamins.

Product safety is one of our primary concerns. Our supplements are suitable for vegans, containing only the purest food-grade and nutraceutical ingredients. All our products are manufactured and packaged in Australia in accordance with GMP compliances and TGA regulatory guidelines. InterClinical Professional is available to Australian and New Zealand healthcare professionals.

InterClinical Professional is the result of a close collaboration between InterClinical Laboratories, an Australian owned company, and researchers in the United States. The range has been developed with Dr David L Watts PhD, Director of Research for Trace Elements Inc., and our team of Australian experts, incorporating scientists, researchers, medical experts and practitioners.

Dr Watts has over 40 years of clinical experience in the field of nutrition. We thank Dr Watts, Trace Elements, and our team of Australian experts for their assistance in helping to formulate this exceptional product range.

Bioactive | Synergistic | Evidence-based

Targeting Optimal Health

100% Australian Owned and Manufactured

InterClinical Professional
For practitioner dispensing only

**DIGESTIVE ZYME**

Each vegetable capsule contains:

- Berberis vulgaris ext. dry conc. 83.33 mg
- Derived from dry stem bark 500 mg
- Zingiber officinale ext. dry conc. 50 mg
- Derived from dry rhizome 250 mg
- Gentiana lutea ext. dry conc. 5 mg
- Derived from fresh leaf 250 mg
- Taurine 10 mg
- Glycine 10 mg
- Protease 11.5 Thousand HUT
- Tilactase 2 Thousand ALU
- Lipase 63 LipU

If symptoms persist, talk to your health professional.

---

**Minerals**

**CALCIUM PLUS**

Each coated tablet contains:

- Calcium (as calcium glycinate dihydrate) 150mg
- Menaquinone 7 (natural vitamin K2) 30 mcg
- Colecalciferol (natural Vitamin D3 100 IU) 2.5 mcg
- Taurine 15mg
- Lysine hydrochloride 15mg
- Eucommia ulmoides ext. dry conc. 100mg
- Derived from dry stem bark 1.5mg

Vitamins and minerals can only be assistance if dietary intake is inadaquate. If symptoms persist, talk to your health professional.

**MAGNESIUM PLUS**

Each coated tablet contains:

- Magnesium 100mg
- (As magnesium glycinate hydrate)
- Pyridoxal 5-phosphate (P5P) 2.92mg
- (Active B6 equiv. vitamin B6) 2mg
- Menaquinone 7 (natural Vit K) 10 mcg

Vitamins and minerals can only be assistance if dietary intake is inadaquate.

**ZINC PLUS**

Each vegetable capsule contains:

- Zinc (zinc glycinate monohydrate) 25mg
- Pyridoxal 5-phosphate (Active B6 equiv. pyridoxine 3mg) 4.38mg
- Methionine 5mg

Warning: Contains Zinc which may be dangerous if taken in large amounts or for a long period. Vitamins and minerals can only be assistance if dietary intake is inadaquate.
Minerals

**POTASSIUM PLUS**
Each film coated tablet contains:
- Potassium (as potassium gluconate) 160 mg
- Nicotinamide 5 mg
- Pyridoxal 5-phosphate (PSP) 2092 mg
- Equiv. Pyridoxine (Vitamin B6) 2 mg

Contains 160 mg of potassium per tablet. Vitamins and minerals can only be of assistance if dietary intake is inadequate.

**IRON PLUS**
Each uncoated tablet contains:
- Iron (as amino acid chelate (Ferrochel®)) 20mg
- Ascorbic acid (Vitamin C) 20mg
- Levomefolate Calcium 487mcg
  Equiv. Levomefolic acid (5-methyltetrahydrofolate) 450mcg

Advise your doctor of any medicine you take during pregnancy in your first trimester. Not for treatment of iron deficiency conditions. Vitamin and mineral supplements should not replace a balanced diet.

Each uncoated tablet contains:
- Copper 2mg
- (as copper II glycinate) amino acid chelate)
- Riboflavin (Vitamin B2) 500mcg

If symptoms persist, seek the advice of a healthcare professional. Vitamin and/or mineral supplements should not replace a balanced diet.

**MANGANESE PLUS**
Each vegetable capsule contains:
- Manganese
  (As manganese II glycinate) 15mg
- Thiamine nitrate 1.23mg
- Equiv. Thiamine 1mg

Vitamins and minerals can only be of assistance if dietary intake is inadequate.

**CHROMIUM PLUS**
Each vegetable capsule contains:
- Chromium (as chromic chloride hexahydrate) 150mcg
- Chromium (as chromium picolinate) 50mcg
- Total Chromium 200 mcg
- Alpha Lipoic Acid 20mg
- Nicotinamide (Vitamin B3) 10mg
- Glutamine 10mg
- Cysteine hydrochloride monohydrate 7.25mg
- Equiv. Cystine 5mg
- **Cinnamomum verum** ext. dry conc. 150mg
  From dry stem bark 1.5g

Vitamins and minerals can only be of assistance if dietary intake is inadequate.

**MOLYZINC**
Each vegetable capsule contains:
- Molybdenum (as molybdenum trioxide) 100mcg
- Zinc (as zinc glycinate monohydrate) 5mg
- Ascorbic acid (Vitamin C) 30mg
- Pyridoxal 5-phosphate (P5P)1.5mg
- Equiv. vitamin B6 1mg

Vitamins and minerals can only be of assistance if dietary intake is inadequate.

**POTASSIUM PLUS**

For practitioner dispensing only
www.interclinical.com.au
VITAMIN C PLUS
Each vegetable capsule contains:
- Ascorbic Acid (Vitamin C) 500mcg
- Rosa canina (Rosehip) dry extract 60mg
- Derived from dry fruit 600mg
- Rutoside 100mg
- Reynoutria japonica (Giant knotweed) dry extract 50mg
- Derived from minimum dry root 10g
- Equiv. Resveratrol (of Reynoutria japonica) 25mg
- Manganese (as Manganese (II) glycinate) 1mg

If symptoms persist, seek the advice of a healthcare professional. Vitamin and mineral supplements should not replace a balanced diet. Not to be used in children under two years of age without medical advice.

ACTIVATED B6 PLUS
Each vegetable capsule contains:
- Pyridoxine 5-phosphate monohydrate 23.5mg
  Equiv. pyridoxine 15.0mg
- Pyridoxine hydrochloride 42.5mg
  Equiv. pyridoxine 35mg
- Total Pyridoxine (Vitamin B6) 50mg
- Thiamine Nitrate (Vitamin B1)
  Equiv. Thiamine 1.62mg
- Riboflavin (Vitamin B2) 500mcg
- Manganese (As manganese (II) glycinate) 1mg
- Total Pyridoxine (Vitamin B6) 50mg

Warning: Stop taking this medication if you experience tingling, burning or numbness and see your healthcare practitioner as soon as possible (Contains vitamin B6). Vitamin and mineral supplements can only be of assistance if dietary intake is inadequate.
