

ALGOTENE II

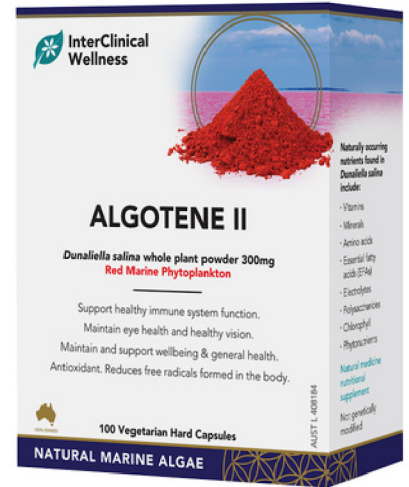

Red Marine Phytoplankton

Dunaliella salina
whole plant powder 300mg

Dunaliella salina is one of the richest sources of dietary beta-carotene and mixed carotenoids.

Dunaliella salina is a soft wall, easy-to-absorb, single-cell marine microalgae (phytoplankton) that sits at the bottom of the food chain.

It is one of the most nutrient-dense, food sources known!

What you need to know about this supplement

Farmed in shallow saltwater lakes with pure sunlight for energy, the algae protects itself from harsh conditions by producing high levels of mixed carotenoids.

The rich combination of carotenoids and green chlorophyll gives *Dunaliella salina* its distinctive orange-red colour.

Dunaliella salina contains a vast spectrum of phytonutrients including vitamins, minerals, amino acids, essential fatty acids, carbohydrates, alpha-carotene, beta-carotene, lutein, zeaxanthin, cryptoxanthin and chlorophyll.

Hippocrates said:

"Let food be thy medicine and medicine be thy food"

Naturally occurring nutrients found in *Dunaliella salina* include:

| | | | |
|------------|---------------------------------|-------------------|------------------|
| ✓ Vitamins | ✓ Amino Acids | ✓ Electrolytes | ✓ Chlorophyll |
| ✓ Minerals | ✓ Essential fatty acids (EFA's) | ✓ Polysaccharides | ✓ Phytonutrients |
