

Detox Assist +

Clinical Formula

Detox Assist + is a professional strength formula that supports the body's natural detoxification processes and digestive system health.

Combining low molecular weight Modified Citrus Pectin with traditional botanicals, Burdock, Coriander and Broccoli – this innovative therapeutic blend is suitable for daily use or may be incorporated into a broader detoxification support plan.

**Clinically Crafted
Evidence Based
Holistic**

What you need to know about this supplement

The Modified Citrus Pectin used in this formula is a scientifically refined form of pectin, featuring a reduced molecular size and a Galacturonic Acid content above 80%, which enhances both its absorbability and binding efficacy.

Burdock has traditionally been used in Western Herbal Medicine to assist the body's natural detoxification processes as a blood cleanser and aids in the excretion of metabolic waste products. Broccoli provides sulforaphane precursors associated with phase II liver support, whilst Coriander stimulates digestive secretion.

Indications:

- Support healthy digestive system function (*Pectin*)
- Traditionally used in Western Herbal Medicine as a blood cleanser (*Burdock*)
- Traditionally used in Western Herbal Medicine to assist natural body detoxification processes (*Burdock*)
- Traditionally used in Western Herbal Medicine to aid excretion of metabolic waste products (*Burdock*)
